Call-to-Action

Now is the time
for virtual.

Existing Patient and Provider **Barriers**

- Distance from facility
- Lack of transportation
- Time limitations
- Lack of access

- Staffing constraints
- Program capacity
- Scheduling limitations

The future of cardiac rehab isn't a place. **It's a promise that high-quality care can meet patients anywhere.**

Key Benefits

Our solutions were designed to protect the health of your on-site program.

We layer into your existing cardiac rehab workflows.

Pritikin provides high-quality care which meets all AACVPR guidelines.

Patients have everything they need to participate in cardiac rehab from home.

Program Delivery

The Patient Experience

Jump-Start Your Recovery

Improve your heart health from the comfort of home...

Having a heart event can be a challenging and emotional experience. But you don't have to go through this alone.

As you begin your recovery, our care team of cardiac rehab professionals is ready to provide the support and education you need to commit to a healthier lifestyle. Together, we will monitor your progress and help you achieve your health and wellness goals.

COMPREHENSIVE CARE

- Our home-based cardiac rehab program is covered by Medicare and many commercial insurers.
- Patients with the following qualifying conditions may participate:
 - Heart attack
 - Coronary artery bypass surgery
 - Stenting or angioplasty
 - Current stable angina (chest pain)
 - Heart or heart-lung transplant
 - Heart valve repair or replacement
 - Chronic heart failure

What to expect with home-based cardiac rehab...

- Each appointment will consist of two components: exercise and education.
- Make sure you have adequate indoor space, cleared of any tripping hazards, where you can exercise.
- Our team of cardiac rehab experts will tailor exercise to your current fitness level and create a personalized plan to help you meet your goals.
- After your Initial Evaluation appointment, you will receive an at-home rehab kit with everything you need to participate in the program, including exercise bands and a pulse oximeter.

BEFORE YOU ENROLL

- Confirm Your Connectivity**
Do you have access to the internet?
- Check Your Device**
Do you have a smart device such as a smartphone, tablet, or computer with a camera?

Initial Evaluation Appointment:
Date April 10 Time 10:00am

To join your Initial Evaluation appointment from home, scan the QR code or visit pritikinconnect.com. If you have questions before your appointment, please contact us at 833-998-5943.

Our team looks forward to helping you begin your cardiac rehab journey!
